The data contained in this file should be reviewed in conjunction with our press release of November 19, 2013, regarding Partner's results for the quarter ended September 30, 2013, as well as previous quarterly results of operations and annual reports, filed with the SEC. The quarterly financial results presented in this press release are unaudited financial results. The results were prepared in accordance with IFRS, other than Adjusted EBITDA and free cash flow before interest payments, which are non-GAAP financial measures.

Definitions

Adjusted EBITDA	'Adjusted EBITDA' represents earnings before interest (finance costs, net), taxes, depreciation, amortization (including amortization of intangible assets, deferred expenses-right of use, and share based compensation expenses) and impairment charges, as a measure of operating profit. Adjusted EBITDA is not a financial measure under IFRS and may not be comparable to other similarly titled measures in other companies.
Free cash flow	Operating cash flows before interest payments, net of cash flows use for investing activities.
Net capital expenditures	Purchase of property, plant & equipment (PPE), plus investments in intangible assets, less proceeds from the sale of PPE, excluding SARC capitalization
Net Debt	Total current and non-current borrowings less cash and cash equivalents.
MOU	Minutes of Use MOU is calculated by dividing, for each month in such period, the total number of minutes of usage, excluding in roaming usage, during such month by the average of the number of our subscribers, and dividing the sum of such results by the number of months in the relative period. MOU data includes total incoming minutes to subscribers of those MVNO operators which Partner hosts on its network.
Churn rate	The total number of cellular subscribers who disconnect from our network, in a given period expressed as percentage of the average of the number of our subscribers at the beginning and end of such period.
ARPU	Average monthly revenue per subscriber ARPU is calculated by dividing for each month in the relevant year, the revenues during the month from cellular services by the average number of cellular subscribers during that month, dividing the sum of all results by the number of months in the relevant period.
